## PRIMARY LOCK-UP

### THE LOGO

The Mt.Rein english Logo comprises two elements, the logo lettermark and logo wordmark. The Logo is a powerful image evoking the culture of oriental furniture boutique - the connection between the modern west and oriental east.

It has a particular relationship with the Mt.Rein name. The Logo lettermark “山雨” has been carefully designed for its modern and yet refined, elegant style, which has been further enhanced by the use of grid. The wordmark “Mt.Rein” is customised and has also been tailored to compliment and balance perfectly with the logo lettermark “山雨”.

The corporate logo is presented through the use of colour as well as shape and form. The two corporate colours are Raindrop Silver and Forest Green. It is an appealing blend of colours chosen for their strong combination - natural - harmony - environmental friendly.

The Colours have been selected according to Pantone standards as shown in this guide and are easily implemented.

#### 1) Primary Lock-Up

The main logo is the dark logo used on white or coloured background. For darker backgrounds you will find an alternative in this guide.

### OTHER LOCK-UPS

#### OTHER LOCK-UPS

Establishing brand consistency throughout Mt.Rein is based on just setting the standards. Keeping Mt.Rein logo presentation consistent, means designer must uniformly present the logo to customers.

Logo presentation inconsistency can have a significant impact on brand recognition.

The Mt.Rein logo should be used in primary lock-up or one of the styles illustrated here for all published work.

The vertical and horizontal proportions of the logo must always be maintained. The logo may not be tilted or deformed.

The logo also may not be created freehand or typeset using one's own set of fonts.

## THE LOGO CONSTRUCTION, SCALE AND GRID

It is important to maintain the scale of the logo and understand the grid system of the brand. The logo scale is regulated by the rule of golden ratio. Please see the demonstration on the right.

### Brand Grid

-

It is 15 degree grid as shown on the left.

### Lettermark Scale

## THE LOGO CONSTRUCTION, COMPUTATION AND CLEAR SPACE

It is important to keep corporate marks clear of any other graphic elements.

To regulate this, an exclusion zone has been established around the corporate mark. This exclusion zone indicates the closest any other graphic element or message can be positioned in relation to the mark. of the the symbol itself and our company name – they have a fixed relationship that should never be changed in any way.

### CLEARSPACE

Logo Symbol

### CLEARSPACE

Full Logo

#### Definition

- Whenever you use the logo, it should be surrounded with clear space to ensure its visibility and impact. No graphic elements of any kind should invade this zone.

#### Computation

- To work out the clearspace take the height of the logo and divide it in half. (Clearspace = Height / 2).

## THE LOGO APPLICATION ON A BACKGROUND

### APPLICATION ON BACKGROUND

To ensure that the logo is clearly recognisable, it must never be altered and has to be reproduced using the approved artworks provided.

Avoid using the reverse logo on high-contrast photos that impede the logo's legibility. The coloured logo must always appear on white or light-coloured backgrounds. Never reproduce the coloured logo on a dark background that does not offer sufficient contrast against the logo. Similarly, never reverse the logo on a light background. Do not use the coloured logo over a photo, use the reverse instead. The greyscale logo must only be used on white or light-grey backgrounds. For other light-coloured backgrounds. Never reproduce the logo on textured or patterned backgrounds that may impair legibility.

Below are an demonstration using the primary logo lock-up:

## THE FONT

Simplo is a geometric sans serif typeface, built in sixteen styles. It is a tribute to the 1930s typeface Semplicità, designed by Nebiolo's Alessandro Butti.

Simplo is ideal for use in display sizes. It is also quite legible in text, and is well suited for graphic design and corporate identity design.

Simplo has sixteen styles, extensive language support, eight different kinds of figures, sophisticated OpenType features — so it's ready for advanced typographic projects.

# 03 THE BRAND COLOUR SYSTEM

---

## THE COLOUR SYSTEM

Colour plays an important role in the Mt.Rein corporate identity program. The colours below are recommendations for various media. A palette of primary colours has been developed, which comprise the “One Voice” colour scheme. Consistent use of these

colours will contribute to the cohesive and harmonious look of the Mt.Rein brand identity across all relevant media. Check with our designer or printer when using the corporate colours that they will be always be consistent.

# 04 THE BRAND PATTERN

---

## THE PATTERN SYSTEM

Pattern can be an incredibly powerful and versatile tool for communicating a brand's personality. More and more we're seeing pattern being used, not just on traditional media such as packaging and apparel but on everything from business stationery to window decals, website banners to office decor.

Patterns can play a vital role in brand recognition, bringing life to simple logos and helping create strong, memorable brand expressions. In some cases patterns can become even more recognizable than the actual logo.

---

The Brand Pattern

## THE BRAND PATTERN

### Explanation:

The Mt.Rein's pattern is developed from the brand grid. The brand grid is a combination of logo grid and random logo placement on the grid.

### Usage:

Use them as the dominant pattern palette for all internal and external visual presentations of the company.
